

Track Work II

Building on introductory training in track and rail infrastructure for work in the rail industry

FOR LEARNERS

WHAT YOU GET FROM THIS COURSE

- More skills for your career in the rail industry
- Nationally recognised qualifications
- A more valuable skill set for your rail employer or for recruiters if you are looking for a job in rail

Course prerequisites

Successful completion of Railtrain's Track Work I training program or Statements of Attainment for the 7 units in that program.

Course Information

This skill set gives you additional skills to qualify as a Track Worker in the rail industry.

The units included are:

- TLIB2001** Check and assess operational capabilities of equipment
- TLIB2092** Operate minor mechanical equipment
- TLIS2030** Carry out track ballasting
- TLIS2031** Install railway sleepers
- TLIS2034** Install and repair rail fastening systems
- TLIS2044** Carry out rail installation

A nationally recognised Statement of Attainment is given to all successful participants, who will have achieved a further 6 of the 16 units of competency required for the TLI27121 Certificate II in Rail Infrastructure.

Delivery

Learning starts online, consolidated with a face-to-face workshop.

PART 1

ONLINE LEARNING

Some of the units are delivered to you firstly as online training modules, including theory and an assessment for each. You can start each module when you are ready and progress through them at your own pace*.

PART 2

CLASSROOM AND WORKSHOP LEARNING

Once you have worked through the online modules and successfully completed the assessments, the next step is to attend a 5 day workshop at Railtrain. The workshop will cover practical training to cement the online learning and include theory and practical assessments. These workshops will be scheduled to meet participant demand.

RAILTRAIN is a national Registered Training Organisation (RTO) that delivers training services exclusively for the rail industry.

*There is a 3 month time limit on completing the online modules and assessments in this program. This is to ensure learning is retained before the workshop is held.

Call (08) 9470 4999 or email training@railtrain.com.au to find out more information OR enrol online at:

www.railtrain.com.au

Track Work II

RECOGNITION OF PRIOR LEARNING (RPL)

If you have relevant work experience and training and can provide evidence of this, you may be eligible for RPL. Call or email our office for advice.

LANGUAGE, LITERACY AND NUMERACY (LLN)

As part of the enrolment process you will be assessed to make sure you have the LLN skills required to work in the rail industry.

LOCATION

The Railtrain training rooms and track work training pad are at Unit 1, 58 Tarlton Crescent, Perth Airport.

COST

The cost for the 6 units, including online learning and workshop theory and practical training, is \$900 (GST Free), to be paid as part of enrolment.

CAREER OPPORTUNITIES/FURTHER STUDY

Successful participants can use this training to apply for jobs in the rail industry if they are not currently employed in rail.

They can also enrol in the following further training program with Railtrain:

- Track Work III

Participants who successfully achieve the units of competency in all three Track Work programs will be awarded the nationally recognised Certificate II in Rail Infrastructure.

More steps on your pathway to a career in the rail industry.
